MATERIA CONTEMPORANEA MADE IN ITALY

CENTURY è un'azienda specializzata nella progettazione di materiali in gres fine porcellanato dall'estetica attuale ed innovativa, creati attraverso processi tecnologici di ultima generazione. CENTURY si rivolge all'edilizia pubblica, commerciale, industriale, tecnica oltre che residenziale. Le esigenze tecnologiche e progettuali espresse da architetti e designer trovano risposte puntuali nelle sue proposte, attraverso collezioni inimitabili per prestazioni d'uso e possibilità applicative.

Fine porcelain stoneware. A safe choice

Fine porcelain stoneware is created out of a blend of top-quality raw materials, appropriately processed and fired at a temperature till 1250 °C to guarantee complete vitrification. Porcelain stoneware products offer outstanding hardness, resistance, compactness, non-absorbency and frost-proofing, making them uniquely high-performing materials for use in architecture in a great variety of different contexts.

fine porcelain stoneware |
gres fine porcellanato

Il gres porcellanato. Una scelta sicura

Il gres fine porcellanato nasce da un mix di materie prime pregiate, opportunamente lavorate e sottoposte a cottura a una temperatura fino a 1250 °C che ne garantisce la perfetta greificazione. I prodotti in gres porcellanato presentano caratteristiche di eccezionale durezza, resistenza, compattezza, inassorbenza e ingelività che li rende inimitabili, per prestazioni, nell'impiego in architettura nei più svariati ambiti di utilizzo.

3. LONG LASTING

Real Effect technology by Fincibec

REAL
EFFECT
technology
by Fincibec

Real Effect takes porcelain stoneware to a new level of realism. Developed by Fincibec Group, this exclusive technology integrates high-quality raw materials and ultra-high-resolution digital graphics to create surfaces with an extraordinarily realistic appearance. Leveraging the technical features of porcelain stoneware, such as durability and versatility, Real Effect creates an unbreakable bond between structure and graphic design. The result is a visual and tactile effect indistinguishable from its inspirational material, providing unmatched expressiveness to surfaces. Real Effect perfectly suits any format and finish, meeting even the most ambitious design needs.

Real Effect porta il gres porcellanato a un nuovo livello di realismo. Messa a punto da Fincibec Group, questa tecnologia esclusiva integra materie prime pregiate e grafiche digitali ad altissima risoluzione per dare vita a superfici dall'aspetto straordinariamente realistico. Sfruttando le caratteristiche tecniche del gres porcellanato, come resistenza e versatilità, la tecnologia Real Effect consente di creare un legame indissolubile tra struttura e grafica. Il risultato è un effetto visivo e tattile indistinguibile dalla materia ispiratrice, che dona alle superfici un'espressività senza pari. Real Effect si adatta perfettamente a ogni formato e finitura, rispondendo anche alle esigenze progettuali più ambiziose.

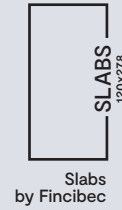

In&Out by Fincibec

In & Out offers the perfect solution for ensuring a seamless flow between indoor and outdoor spaces. The collection combines aesthetics and functionality with materials designed to meet the specific requirements for each intended use. With a variety of surface options available for both indoor (natural, brushed, soft) and outdoor (grip in 9 and 20 mm) spaces, it is possible to create environments with a cohesive design continuity. See surface details on pages 10/11.

In & Out rappresenta la soluzione ideale per garantire continuità tra spazi interni e spazi esterni. La collezione combina estetica e funzionalità con materiali rispondenti ai requisiti specifici per ogni destinazione d'uso. Attraverso le differenti superfici disponibili per spazi interni (naturale, molata, soft) ed esterni (grip in 9 e 20 mm.) si possono creare ambienti caratterizzati da una avvolgente continuità progettuale. Vedi info superfici a pag. 10/11.

Slabs by Fincibec Advance Tech

Benefits

1. AESTHETIC CONTINUITY continuità di posa

The large size of slabs requires significantly less grouting, creating a pleasing effect of continuity. Grazie alle grandi dimensioni delle lastre diminuisce significativamente la presenza di fughe; le superfici offrono così un piacevole effetto di continuità estetica.

2. QUICK INSTALLATION velocità di posa

Large sizes are suitable for flooring and covering surfaces with single pieces, while minimising cuts and waste. I grandi formati sono ideali a pavimentare e rivestire le superfici con pezzi unici, minimizzando tagli e sfridi.

3. VALORISATION OF MATERIAL valorizzazione materica

The material effects of marble, stone, resin and cement are enhanced by large sizes, enriching the environment in which they are laid. Gli effetti materici dei marmi, delle pietre, delle resine e dei cementi vengono esaltati dai grandi formati, impreziosendo l'ambiente in cui vengono posati.

4. AMPLE POTENTIAL USE ampie possibilità d'utilizzo

Large size slabs can be used for traditional uses, such as floors, claddings and facades, but also to create structures and objects that are coordinated with the rest of the environment. Le lastre di grande formato possono essere impiegate per utilizzi tradizionali, come pavimenti, rivestimenti e facciate, ma anche per realizzare strutture e oggetti d'arredo coordinati con il resto dell'ambiente.

5. INTEGRATION WITH EXISTING COLLECTIONS integrazione con collezioni esistenti

Large slabs use graphic and material-based expressions consistent with traditional products already available in the product range, thus guaranteeing the same aesthetic effect in a wider range of sizes. Le grandi lastre utilizzano espressività grafiche e materiche coerenti con i prodotti in formato tradizionale già presenti in gamma, garantendo quindi il medesimo effetto estetico in un più ampio numero di formati.

Inspiration

Rocknest is born from the earth - ceramic material inspired by twelve types of stone that interact with light, shaping spaces and transforming them into inviting environments. It embodies a tangible strength, a vision of beauty that embraces modernity, making every setting unique, whatever its purpose.

Dalla terra nasce Rocknest, materia ceramica ispirata a dodici pietre che dialogano con la luce, accarezzano gli spazi e li trasformano in mondi da abitare. È la promessa di una forza tangibile, un'idea di bellezza che non teme la contemporaneità, ma la abbraccia, rendendo unici spazi con differenti destinazioni d'uso.

Surfaces

Natural surface

The natural finish allows you to capture the original material essence of the product, enhancing its aesthetic qualities, including the colours, veining, and textures. Durable and versatile, this surface is ideal for both flooring and wall applications in residential, commercial, and high-traffic public spaces. Developed in Fincibec's laboratories using Natural Evolution technology, this next-generation surface offers a good slip resistance combined with a soft, pleasant feel. The result is an incredibly realistic finish, highly valued by designers.

La finitura naturale permette di cogliere l'originale essenza materica del prodotto esaltandone le qualità estetiche, incluse le colorazioni e le eventuali venature e texture. Resistente e versatile, questa superficie è indicata per la posa a pavimento e a parete negli spazi residenziali, commerciali e pubblici ad alto traffico. Inoltre, questa superficie naturale di ultima generazione realizzata dai laboratori Fincibec (Natural Evolution), è caratterizzata da una buona resistenza allo scivolamento abbinata a una gradevole morbidezza al tatto. Il risultato è una finitura estremamente realistica, molto apprezzata dai progettisti.

Brushed surface

Brushing is a specialised ceramic surface treatment that creates a subtle yet consistent sheen, following the material's natural structure. Brushed surfaces evoke the charm of time-worn stone, enhancing the product's aesthetics, colour depth, and the realistic details of its various patterns. Used for both flooring and wall applications, brushed tiles are particularly suited to residential spaces but can also elevate the design of medium-traffic commercial and public areas.

La molatura è una particolare lavorazione della superficie ceramica in grado di produrre un leggero ma continuo effetto lucido che asseconda in maniera uniforme la struttura del materiale. Le superfici molate evocano il fascino della materia vissuta ed esaltano l'estetica del prodotto, la profondità dei colori e il realismo dei dettagli delle diverse grafiche. Impiegati nel rivestimento di pavimenti e pareti, i prodotti molati sono particolarmente indicati negli spazi residenziali, ma possono arricchire anche il design degli spazi commerciali e pubblici a traffico medio.

Soft surface

Porcelain stoneware with a Soft finish features an exceptionally smooth texture and refined appearance, faithfully reflecting the material inspiration and colour variations of each design. With a versatility similar to that of natural-finish porcelain, the Soft finish expands the expressive potential of ceramic materials, making it ideal for wall and floor applications in residential and commercial spaces, subject to verification of load resistance and specific technical requirements.

Il gres porcellanato con finitura Soft presenta una superficie estremamente morbida al tatto ed elegante alla vista che rispecchia fedelmente l'ispirazione materica e le colorazioni dei singoli progetti. Caratterizzato da una versatilità simile a quella del gres con finitura naturale, il prodotto Soft amplia le potenzialità espressive del materiale ceramico ed è indicato per rivestire qualsiasi tipo di parete e pavimenti di ambienti residenziali e commerciali con le opportune verifiche sulle sollecitazioni e specifiche previste.

Grip surface

The Grip surface offers the perfect balance of aesthetics, reliability, and safety, making it ideal for outdoor flooring, public and commercial spaces, and private walkways requiring specific performance criteria. Highly resistant to temperature fluctuations, frost, moisture and fire. It also ensures a high coefficient of friction for slip resistance, as well as excellent durability against stains, solvents, detergents and salt. Mould- and moss-resistant. Easy to clean. Fincibec's ISO 13006 Bla high-density porcelain stoneware maintains its integrity over time, ensuring that collections with multiple finishes provide seamless visual continuity between indoor and outdoor spaces.

La superficie Grip è il giusto connubio tra estetica, affidabilità e sicurezza ed è idonea per la realizzazione di pavimentazioni delle aree esterne, degli spazi pubblici, commerciali e dei passaggi delle aree private dove sono richiesti requisiti specifici. Alta resistenza agli sbalzi termici, al gelo, all'umidità e al fuoco. Elevato coefficiente di attrito e sicurezza alla scivolosità. Forte resistenza alle macchie, aisolventi, ai detergenti, al sale. Inattaccabilità da muffe e muschi. Facile pulibilità. Il gres porcellanato Fincibec ISO 13006 Bla, ad elevata greificazione ed inalterabile nel tempo, risponde nel modo migliore a tutte queste necessità garantendo inoltre per le serie con più finiture superficiali continuità visiva tra gli ambienti interni ed esterni.

NEW OUTDOOR
FLOOR EXPERIENCE

It is a monolithic slab of porcelain stoneware with a thickness of 20 mm, offering outstanding technical performance. Designed for outdoor flooring in both public and private spaces, it is highly resistant to significant static and dynamic loads. The surface finish, with exceptional R11 A+B+C anti-slip properties, is complemented by a wide range of specialised pieces, making it ideal for applications such as swimming pools and wellness areas, ensuring seamless continuity between indoor and outdoor spaces.

È una lastra monolitica di gres porcellanato, in spessore 20 mm, con prestazioni tecniche eccezionali, ideale per pavimentazioni esterne sia pubbliche che private, idonea a sopportare notevoli carichi statici e dinamici. La finitura superficiale, caratterizzata da elevate performance antiscivolo R11 A+B+C, è corredata da una ricca gamma di pezzi speciali, perfetti per applicazioni come piscine e zone wellness, garantendo una continuità spaziale tra interno ed esterno.

Benefits plus

HIGH RESISTANCE TO BREAKING LOADS AND STRESS

FINCIBEC GROUP

Concept

Rocknest is a versatile and creative collection inspired by 12 different types of stone, available in 4 surface finishes and 6 sizes, including large slabs up to 120x278 cm and thicknesses of up to 2 cm. It offers flexible, customisable solutions with harmonious colours and sophisticated decorative elements. Suitable for both interior and exterior spaces, it creates a visually continuous and architecturally cohesive design with a striking aesthetic impact.

Rocknest è una collezione versatile e creativa che si ispira a 12 diverse pietre disponibili in 4 finiture superficiali, in 6 formati fino alla lastra 120x278 cm e con spessori fino a 2 cm. Offre soluzioni flessibili e personalizzabili grazie a colori armoniosi e decorazioni sofisticate. Ideale per interni ed esterni, garantisce continuità visiva e armonia progettuale per un design di grande impatto.

EVERYDAY ELEGANCE

Rocknest surfaces transform interiors into a haven of calm and style. The light tones of the slabs strike the perfect balance between contemporary style and warmth. Seamless surfaces, used for both floors and walls, enhance visual fluidity, while high-quality materials add a touch of refined simplicity.

ELEGANZA QUOTIDIANA
Le superfici Rocknest trasformano l'ambiente in un'oasi di calma e stile. La tonalità chiara delle lastre crea un equilibrio perfetto tra modernità e calore. Le superfici continue, utilizzate sia per i pavimenti che per le pareti, garantiscono fluidità visiva, mentre l'attenzione ai materiali dona un tocco di sofisticata semplicità.

#ichooseresponsibly

Italian Ceramics. I choose responsibility.

Responsibility towards the world I live in determines every choice I make in my daily life. Italian ceramic companies are dedicated to daily, concrete actions aimed at improving quality of life and respecting the environment.

Many companies in other countries do not share this commitment.

DESIGN
Design products created to last.

ENVIROMENTAL RESPONSIBILITY
Reuse of production waste and process water.

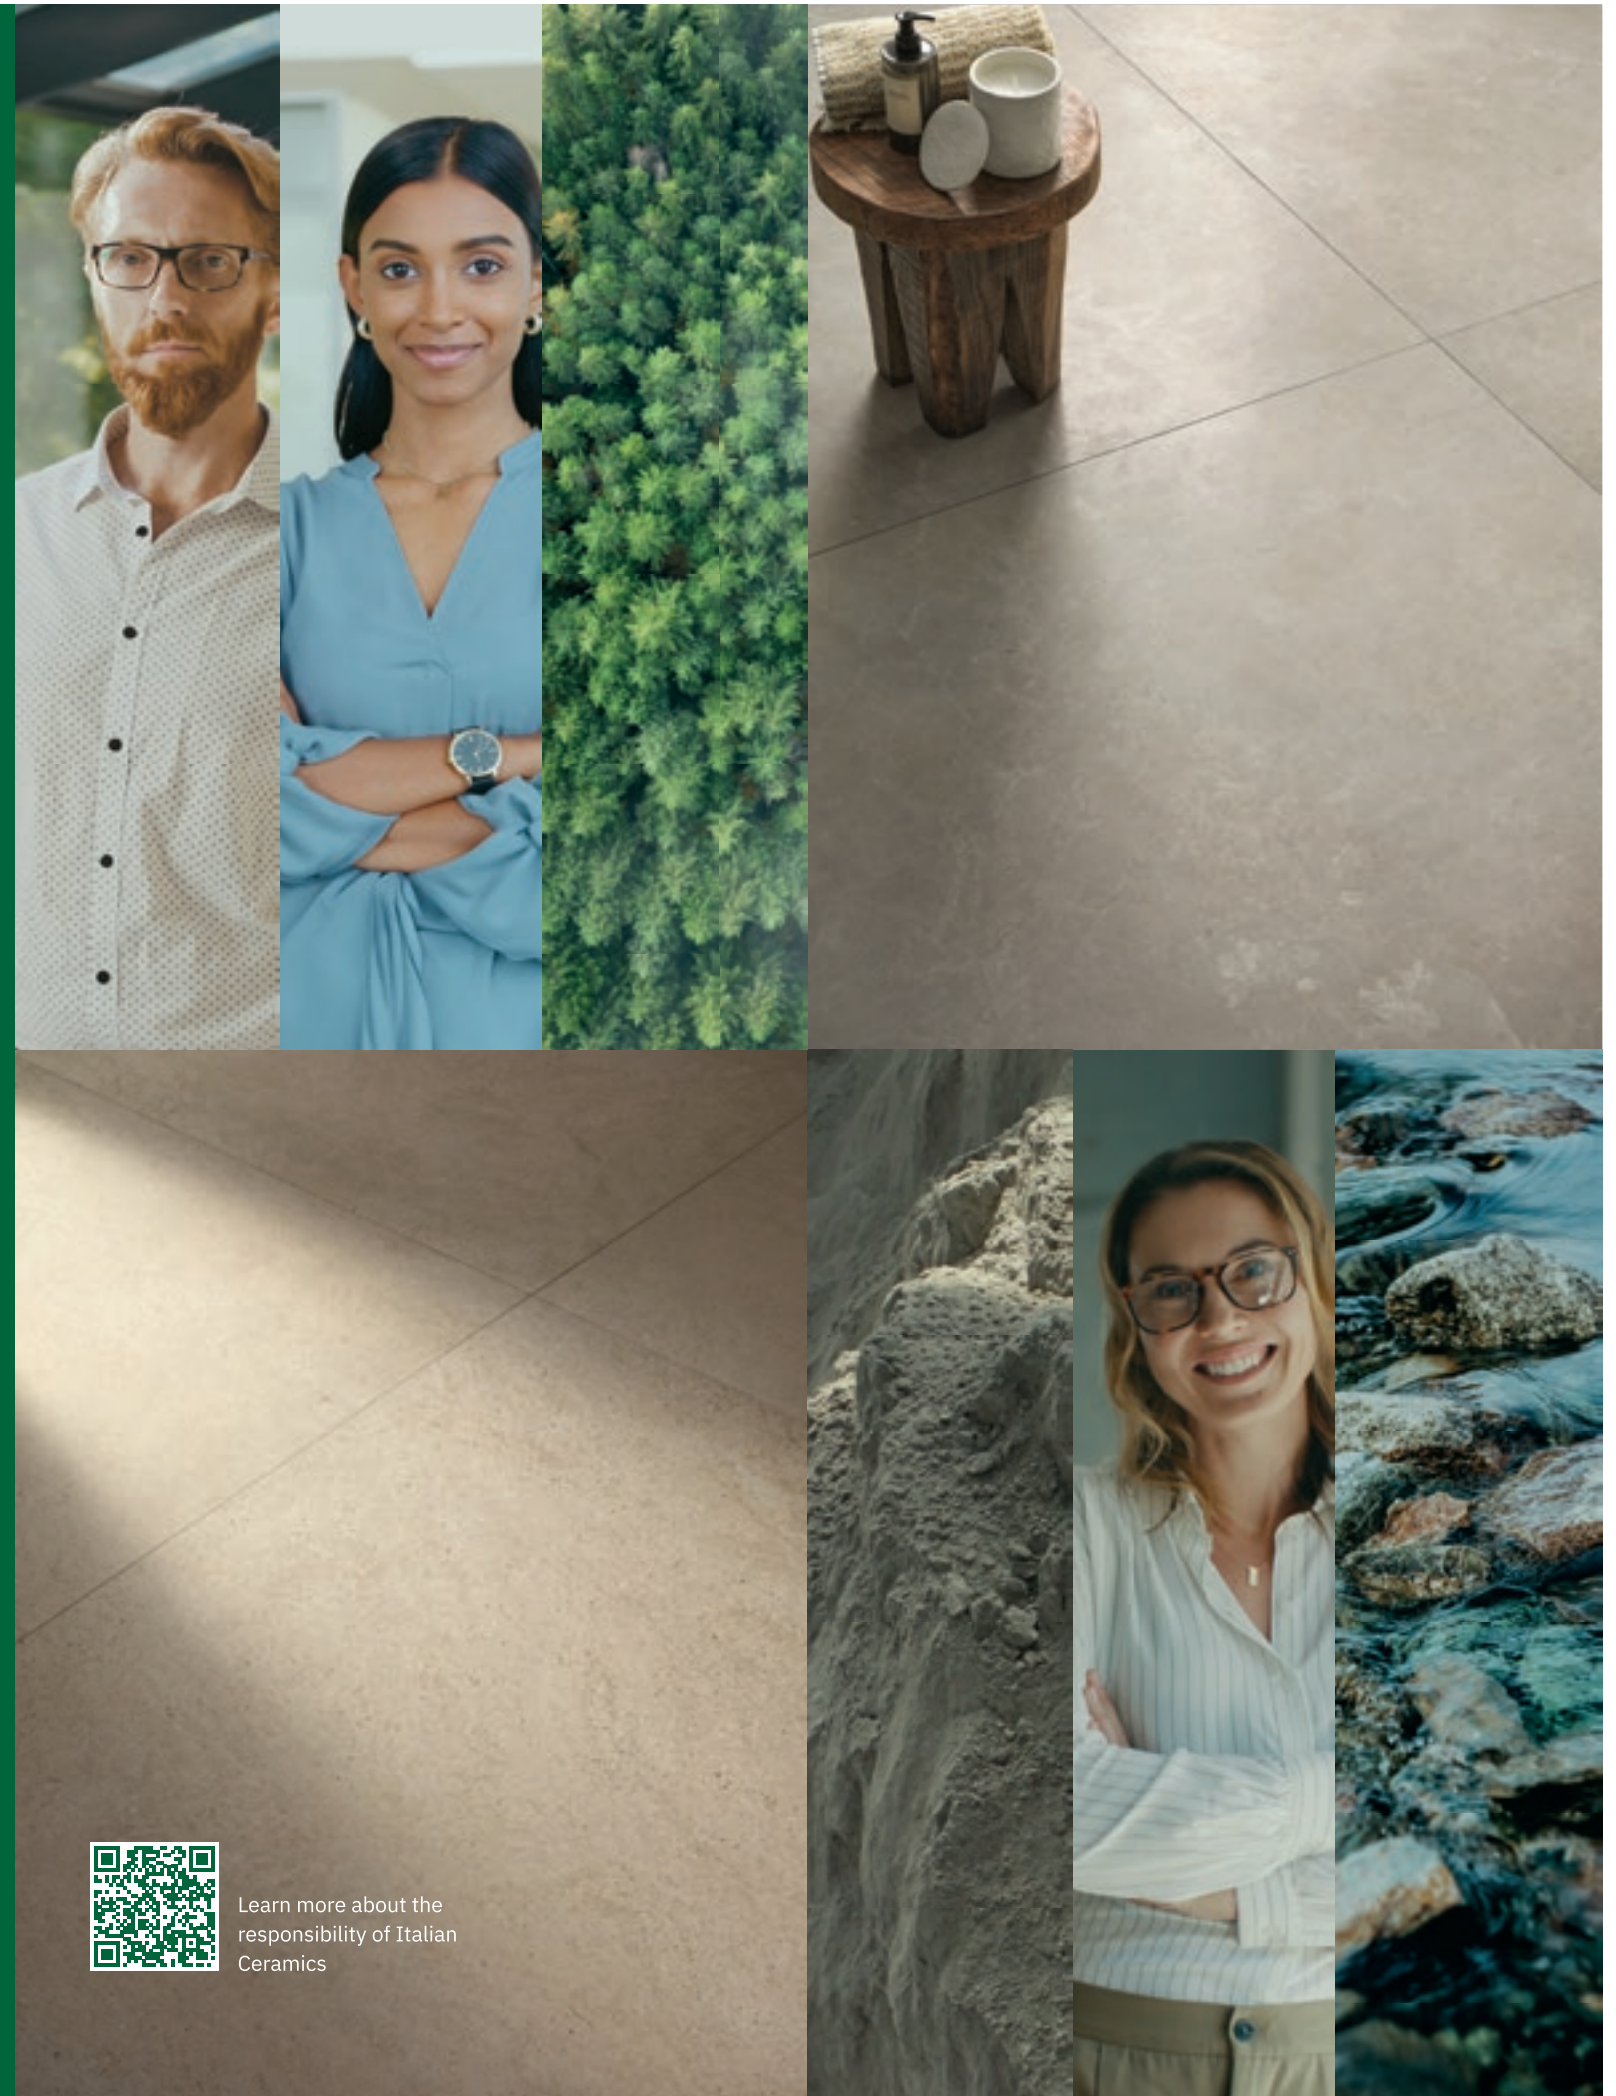

SAFE MATERIAL
Ensuring VOC-free (volatile organic compounds) environments.

SOCIAL RESPONSIBILITY
Workers with permanent contracts.

Learn more about the responsibility of Italian Ceramics

100% CERAMIC OF ITALY

These logos demonstrate a precise geographical location of origin and a way of running a business enterprise with the highest ethical and cultural values. The products made by Century are wholly designed, developed and manufactured in Italy. Each collection is designed and checked in the group's three R&D laboratories and all the subsequent production stages are carried out exclusively in Italian facilities with Italian technology. By using the above-mentioned logos, the aim of Century is to identify a work philosophy which, with the utmost respect for the environment and man, leads to the production of materials adhering to the highest standards of performance and aesthetics through the best use of all the resources available. Century adheres to the 'Made in Italy' code of ethics promoted by the Italian industrial ceramics association, 'Confindustria Ceramica', and is committed to full transparency on the origin of its products market with the brand.

Questi loghi testimoniano una precisa indicazione geografica di provenienza ed un modo di fare impresa legato ai più alti valori etici e culturali. I prodotti realizzati da Century sono completamente ideati, studiati e fabbricati in Italia. Ogni collezione viene progettata e verificata nei laboratori di ricerca e sviluppo del gruppo e tutte le successive fasi produttive sono realizzate esclusivamente all'interno di stabilimenti italiani con tecnologia italiana. Century vuole identificare una filosofia di lavoro che, nel massimo rispetto dell'ambiente e dell'uomo, porti alla realizzazione di materiali secondo i più elevati standards prestazionali ed estetici attraverso l'ottimizzazione di tutte le risorse impiegate. Century aderisce al codice etico sul Made in Italy promosso da Confindustria Ceramica con il quale tutte le aziende aderenti si impegnano alla massima trasparenza riguardo l'origine dei prodotti apponendovi il marchio.
