

HONEY WOOD

Honey Wood, la serie in gres porcellanato, capace di trasmettere quelle stesse vibrazioni che un **legno naturale** sa esprimere. L'intensità delle sfumature e l'effetto rilievo delle venature che ne attraversano la superficie, esaltano la struttura tipica del legno appena tagliato, rivelandone gli aspetti più autentici della materia.

Dal **Larice** al **Noce**, dall'**Olmo** al **Rovere** al **Bricola**: sono queste le cinque essenze di legno d'ispirazione, le più diffuse nel mondo del rivestimento dei pavimenti. Riproposte nella nuova serie con un **unico tono caldo**, il miele, Honey Wood sa restituire al design degli ambienti quella carica avvolgente che solo un vero legno sa esprimere. Oltre ai formati classici 20x120, 30x120 cm e 40x120 cm per l'outdoor, Honey Wood si arricchisce del **grande formato in 6 mm di spessore 24x240 e 40x240 cm**, per progetti di design sempre più ambiziosi.

Honey Wood, the porcelain stoneware series which conveys the same vibrations expressed by **natural wood**. The intensity of the nuances and the relief effect of the grain running across the surface enhance the structure, typical of freshly cut wood, revealing the most authentic aspects of the material.

From **Larch** to **Walnut**, from **Elm** to **Oak** to **Briccola**: these are the five wood species that inspire the series, and the most popular in the world of floor coverings. Re-proposed in the new series with a **single warm tone**, honey, Honey Wood can restore that warm, invigorating feel to the design of the rooms that only real wood can express. In addition to the classic 20x120, 30x120 cm and 40x120 cm sizes for outdoor use, Honey Wood is enriched with the **large 6 mm thick 24x240 and 40x240 cm sizes** for increasingly ambitious design projects.
