
ECHO

SOME LANDSCAPES SPEAK IN SILENCE.

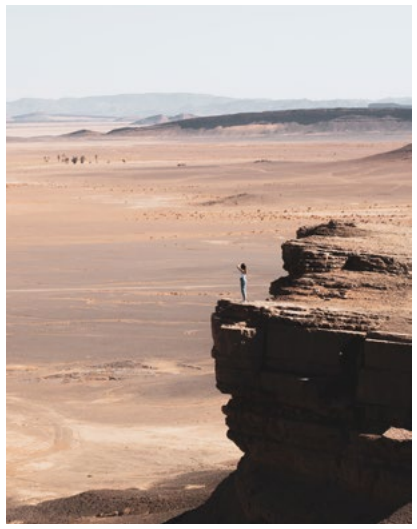

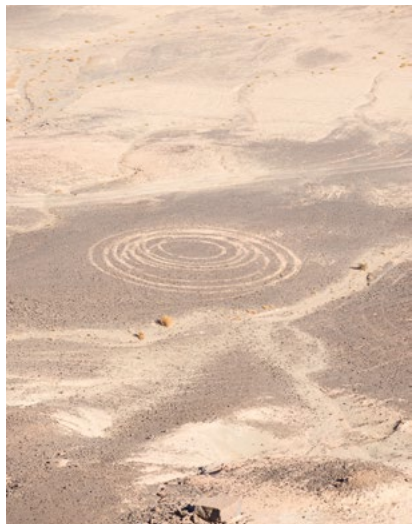

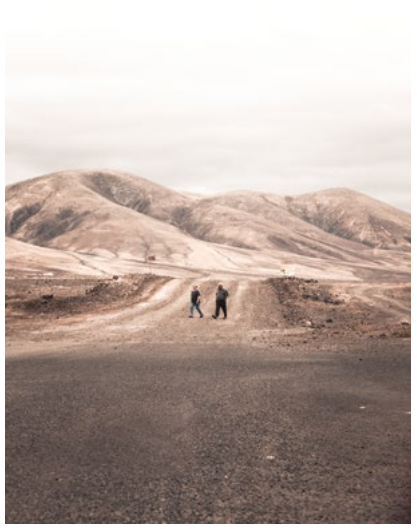

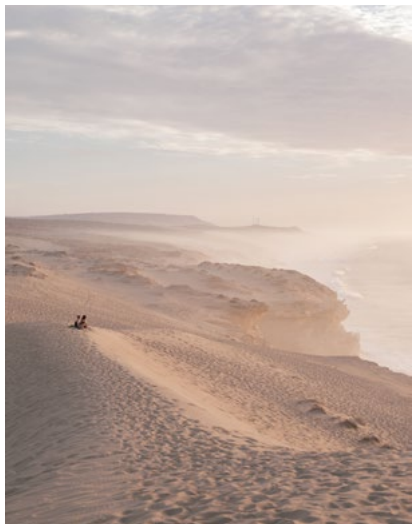

WIND MOVES ACROSS THE SURFACE.

TRACES APPEAR. THEN DISAPPEAR.

WHAT REMAINS IS A FEELING.

ECHO

THE QUIET TRACE OF NATURE

Echo nasce dall’osservazione di paesaggi modellati dagli elementi, dove vento, sabbia e tempo disegnano superfici in continua trasformazione. Una materia essenziale, morbida e avvolgente, attraversata da texture delicate, leggere variazioni e dettagli che emergono con naturalezza.
Tre tonalità interpretano questo equilibrio attraverso una palette calda e misurata, mentre un’ampia gamma di formati permette di creare continuità tra spazi interni ed esterni. La collezione si completa con una superficie strutturata in formato 60x120 cm, dove il rilievo amplifica profondità e movimento, e con il decoro Stuoia, ispirato all’intreccio delle fibre naturali, che introduce una trama più calda e tattile. Echo traduce così la memoria degli elementi in un linguaggio moderno: superfici silenziose e materiche, capaci di costruire atmosfere autentiche attraverso luce, texture e naturale semplicità.

Echo stems from the observation of landscapes shaped by the elements, where wind, sand and time shape surfaces in constant transformation. An essential, soft and enveloping material, threaded with delicate textures, subtle variations and details that emerge naturally. Three shades express this balance through a warm, restrained palette, while an extensive range of formats allows for seamless continuity between indoor and outdoor spaces. A structured 60x120 cm surface rounds out the collection, where relief enhances depth and movement, alongside the Stuoia decor – inspired by the interwoven textures of natural fibres – introducing a warmer, more tactile quality.
Echo translates the memory of the elements into a modern language: quiet, tactile surfaces that build authentic atmospheres through light, texture and natural simplicity.
