ATELIER CHARM

Cozy Marfil Calacatta Gold Supreme Capraia Crystal Dolomia

Seducente e senza tempo, la bellezza dei marmi più nobili rivive nelle superfici ceramiche ultra-realistiche e tecnicamente ineccepibili della collezione Atelier. Essenze eleganti e luminose, che vanno dal beige-avorio di Cozy Marfil al limpido candore venato di grigio e d'oro di Calacatta Gold; al dinamismo delle intricate venature di Supreme Capraia ed infine Crystal Dolomia che completa una mirabile raccolta di pietre in gres porcellanato; caratterizzato da nuance bianche con morbide striature opalescenti che dona un valore inestimabile allo spazio.

Séduisante et intemporelle, la beauté des marbres les plus nobles vit de nouveau sur les surfaces céramiques ultra réalistes et techniquement irréprochables de la collection Atelier. Variétés élégantes et lumineuses, allant du beige-ivoire de Cozy Marfil à la limpide blancheur veinée de gris et d'or de Calacatta Gold, le dynamisme des entrelacs de veines de Supreme Capraia et Crystal Dolomia viennent compléter une admirable collection de pierres en grès cérame : caractérise par des nuances blanches aux stries douces et opalescentes, apporte une valeur inestimable à l'espace à travers.

Seductive and timeless, the beauty of the most noble varieties of marble lives on in the Atelier collection's ultra-realistic, technically impeccable ceramic surfaces. Elegant, luminous stones, ranging from the ivory-beige of Cozy Marfil to the grey- and gold-veined pristine white of Calacatta Gold, the dynamic veining of Supreme Capraia.

Crystal Dolomia complete an admirable array of porcelain stoneware stones,; shades of white with delicate opalescent streaks to bestow inestimable value on design schemes.

Die verführerische, zeitlose Schönheit der edelsten Marmorsteine erhält in den täuschend naturgetreuen, technisch unübertroffenen Keramikoberflächen aus der Kollektion Atelier ein neues Leben. Elegante, leuchtende Optiken, vom Elfenbein-Beige von Cozy Marfil bis hin zum makellosen, gemaserten Grau und Gold von Calacatta Gold; bis hin zur Dynamik der miteinander verschlungenen Äderungen von Supreme Capraia.

Crystal Dolomia komplettieren eine wunderbare Feinsteinzeug-Kollektion: Die erste zeichnet sich durch Abstufungen in Weiß aus, mit zarten.

Polished

Una finitura che illumina gli ambienti con la lucentezza tipica dei marmi levigati a specchio. Una superficie sofisticata e preziosa, che dona profondità e nitidezza a vene e nuvolature.
Une finition qui apporte aux pièces l'éclat typique du marbre poli miroir. Une surface sophistiquée et précieuse, qui donne profondeur et netteté aux veines et aux marbrures.

A finish that illuminates interiors with the distinctive gleam of mirror-polished marble. An exquisite, sophisticated surface that adds depth and clarity to veins and mottling.
Ein Finish, das die Räume mit dem typischen Glanz spiegelpolierter Marmorsteine zum Strahlen bringt. Eine elegante, kostbare Oberfläche, die Äderungen und Wolkeneffekten Tiefe und Brillanz verleiht.

Natural RIFT

Grazie a 3D DAT, l'esclusiva tecnologia decorativa di NovaBell, la superficie naturale emula la tridimensionalità che caratterizza la pietra naturale. Applicazioni sinergiche di colle, graniglie e smalti colorati allineano perfettamente dettagli morfologici e cromatici dal realismo ineguagliabile.
Grâce à 3D DAT, la technologie décorative exclusive de NovaBell, la surface naturelle reproduit la tridimensionnalité qui caractérise la pierre naturelle. Créant des synergies, des applications de colles, granulats et émaux colorés permettent d'obtenir un alignement parfait des détails morphologiques et chromatiques au réalisme inégalé.

Thanks to NovaBell's exclusive 3D DAT decorative technology, the natural surface emulates the three-dimensional texture of the natural stone. Synchronised applications of adhesives, grits and coloured glazes achieve perfect alignment of details of form and colour, for unrivalled realism.
Dank 3D DAT, der exklusiven Dekor-Technik von NovaBell, ahmt die natürliche Oberfläche die für den Naturstein charakteristische Dreidimensionalität nach. Die synergetische Auftragung von Klebern, Splitt und farbigen Glasuren passt perfekt zu den unglaublich naturgetreu wirkenden morphologischen und farblichen Details.

CONTINUOUS VEINING:
MAGNIFICENT
OVERSIZE PATTERNS.

VENA CONTINUA / CONTINUOUS VEINING
INFINITE GRAPHIC CYCLE

Le venature si articolano su 4 facce, riproponendo lo sviluppo tipico del marmo naturale. La grafica della quarta faccia prosegue nella prima, in modo da replicare la soluzione decorativa all'infinito.

The vein patterns are structured in 4 graphic surfaces to reproduce the way the designs evolve in the natural marble itself. The patterning of the fourth surface continues into that of the first, so the decoration can be replicated to infinity.

S'articulando sur 4 faces, les veines présentent le développement typique du marbre naturel. Le graphisme de la quatrième face se poursuit sur la première, de façon à reproduire la solution décorative à l'infini.

Die Äderungen zeigen sich auf vier Seiten und ahmen den typischen Verlauf auf Naturmarmorstein nach. Das Muster der vierten Seite setzt sich auf der ersten Seite fort und führt zu einer unendlichen Replizierung des Dekors.

VENA CONTINUA: IMPONENTI SCENOGRAFIE FORMATO OVERSIZE. Grazie alle grandi lastre sottili di Supreme Capraia e di Calacatta Gold è possibile comporre monumentali arazzi marmorei che si dispiegano, senza soluzione di continuità, su più moduli.

VEINE CONTINUE : D'IMPOSANTES SCÉNOGRAPHIES FORMAT OVERSIZE. Grâce aux grandes dalles de fine épaisseur de Supreme Capraia et Calacatta Gold, il est possible de composer de monumentales tapisseries marmoréennes qui se déploient, sans interruption, sur plusieurs modules.

The Supreme Capraia and Calacatta Gold large thin slabs enable the composition of monumental marble tapestries that continue seamlessly from module to module.

DURCHGÄNGIGE ÄDERUNG: IMPOSANTE INSZENIERUNGEN IM OVERSIZE-FORMAT. Mit den dünnen, großen Platten der Kollektionen Supreme Capraia und Calacatta Gold lassen sich monumentale Wandbeläge aus Marmor gestalten, die sich nahtlos über mehrere Module erstrecken.
