# Piccadilly

# Piccadilly

The tiles in this series go beyond mere decoration: they become true modular works of art to be incorporated into a room. Bright colors are applied to a dark background using the dripping technique, creating vibrant surfaces with a strong visual impact.

Le piastrelle di questa serie vanno oltre la semplice funzione decorativa: diventano vere e proprie opere d’arte modulari da integrare nell’ambiente. Colori vivaci vengono applicati su uno sfondo scuro utilizzando la tecnica del dripping, creando superfici vibranti dall’elevato impatto visivo.
