Das Hauptmodul hat das Format **20×30×2 cm – 8”x12”x0,8”** und hat die Besonderheit, ohne Fugen und Putz verlegt werden zu können (außer in feuchten Bereichen). VIA APPIA — эту коллекцию утилируют для покрытия из глазурованной терракоты с скульптурным и трехмерным дизайном. Ее облечение и полуматовый глазурь напоминают эстетический язык древнеримских колонн расположенных вдоль знаменитой улица Аппия, но воплощают всю современность сегодняшнего дня благодаря изысканным и оригинальным цветам. Основной формат имеет размеры 20x30x2 см – 8x12x0,8 дюйма и отличается возможностью установки без швов и затирки (за исключением влажных помещений). Помещение, облицованное плиткой Via Appia, это, несомненно, сочетание шарма, истории и дизайна, интерпретирующее ценности прошлого, через новое и современное мастерство

La finitura **semi-opaca** è ottenuta con uno smalto morbido al tatto, caratterizzato da una leggera matericità che richiama gli effetti decorativi tradizionali delle maioliche italiane.

The **semi-matt** finish is achieved using a soft-touch glaze, characterised by a subtle textured quality that evokes the traditional decorative effects of Italian majolica.

La finition **semi-mate** est obtenue avec un émail doux au toucher, caractérisé par une légère texture qui rappelle les effets décoratifs traditionnels des faïences italiennes.

Das **seidenmatte** Finish wird durch eine sich weich anfühlende Glasur erzielt, die durch eine leichte Textur gekennzeichnet ist, welche an die traditionellen dekorativen Effekte der italienischen Majolika erinnert.

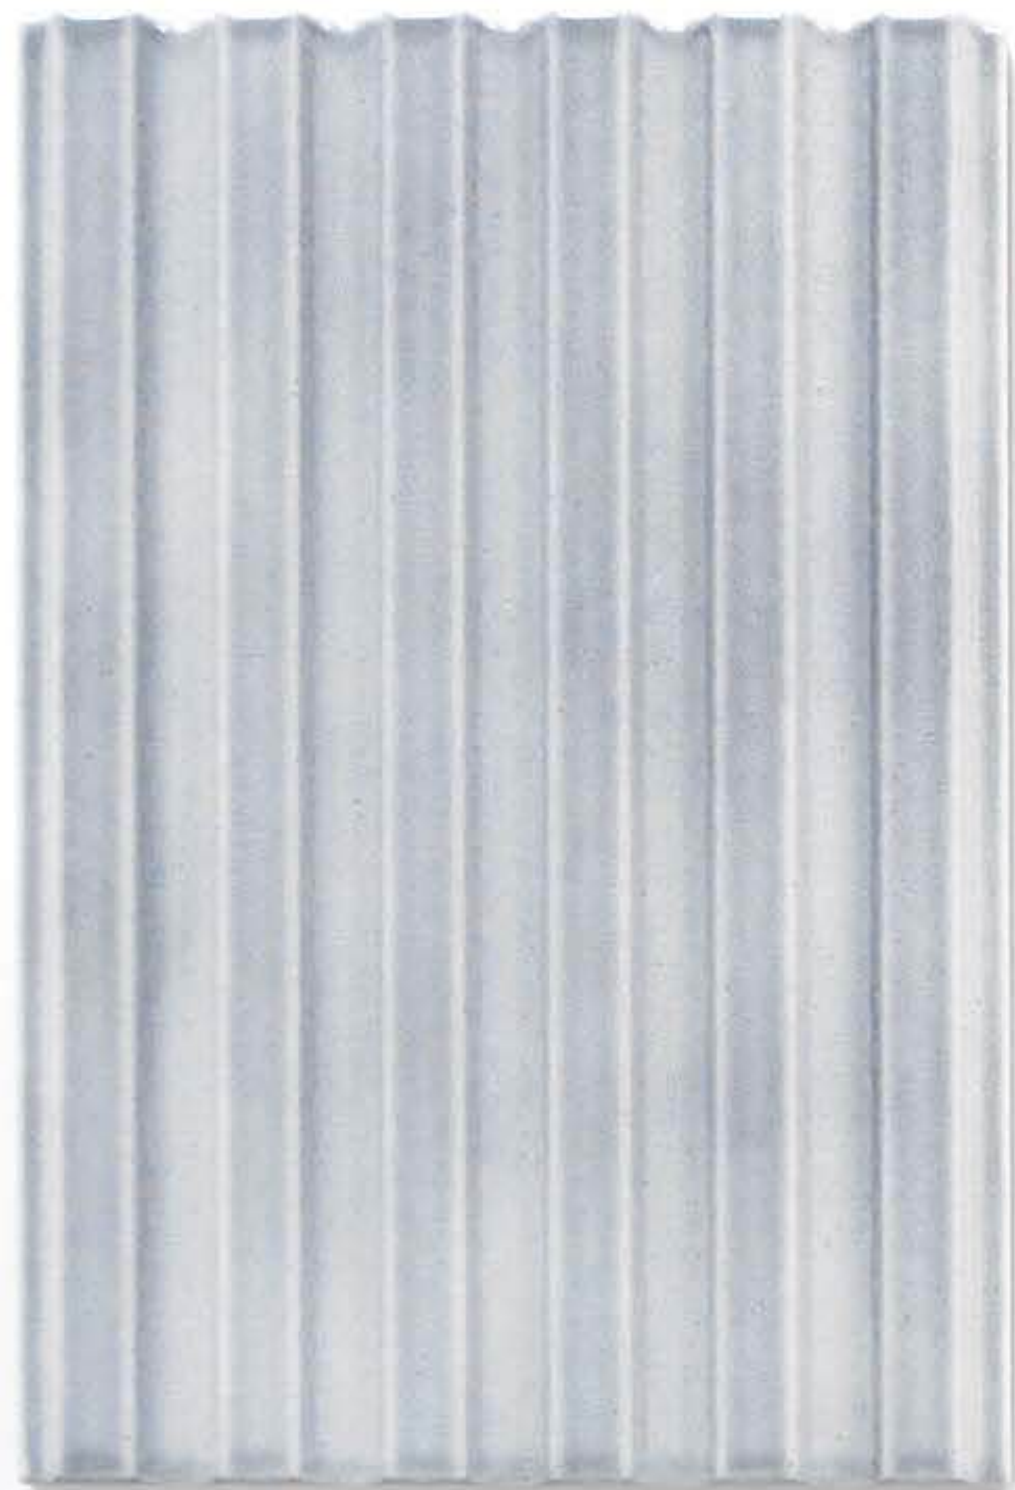

El acabado **semimate** se consigue con un esmalte suave al tacto, que se caracteriza por una ligera textura que recuerda los efectos decorativos tradicionales de la mayólica italiana.

Полуматовая отделка достигается за счет глазури, мягкой на ощупь, которая отличается легкой фактурностью, напоминающей традиционные декоративные эффекты итальянской майолики.

SINERGIA - Collezione VIA EMILIA formato plain

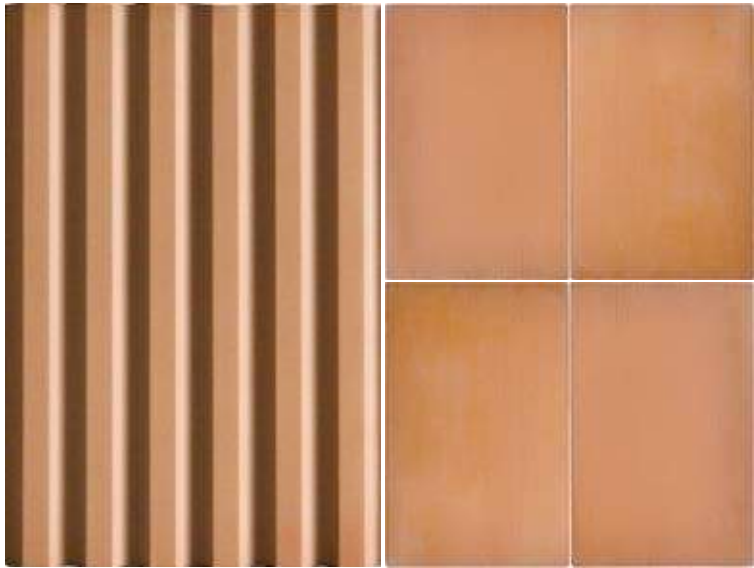

SYNERGIE - VIA EMILIA Collection plain size

Il design 3D della collezione Via Appia può essere posato in sinergia con il formato plain della collezione Via Emilia, con cui condivide 11 colori. Lo stesso smalto semi-opaco permette infatti di alternare con naturalezza superfici piane e volumi tridimensionali, garantendo la massima libertà compositiva per progetti architettonici eleganti e dinamici. Il formato plain risulta inoltre strategico in corrispondenza dell'installazione di arredi, dove è richiesta una superficie d'appoggio lineare e non 3D.

The 3D design of the Via Appia collection can be laid in combination with the plain format of the Via Emilia collection, with which it shares 11 colours. The same semi-matt glaze allows for a natural alternation between flat surfaces and three-dimensional volumes, ensuring maximum design freedom for elegant and dynamic architectural projects. The plain format is also ideal for areas where furniture is to be installed, where a linear, non-3D surface is required.

Um eine Außenecke zu verkleiden, kann das Spezialteil „Eckstück“ **(A)** verwendet werden, das die im 90°-Winkel verlegten Fliesen nahtlos miteinander verbindet. (Es wird empfohlen, die Fuge zwischen dem „Eckstück“ und den angrenzenden Fliesen zu verfugen.)

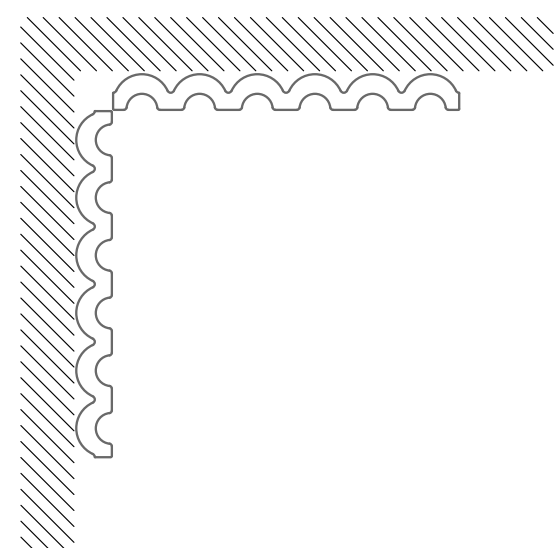

Para revestir una esquina exterior, se puede utilizar la pieza especial «cuarto de esquina» **(A)**, que une perfectamente las baldosas colocadas en ángulo recto. (Se recomienda rellenar con lechada la junta que queda entre la pieza de «cuarto de esquina» y las baldosas adyacentes).

Для отделки наружного угла можно использовать специальный угловой элемент **(A)**, который идеально соединяет плитки, уложенные под углом 90°. (Рекомендуется зашпаклевать щель, образовавшуюся между угловым элементом и соседними плитками).
